

SAYS

WHAT HAVE WE HEARD THEM SAY?  
WHAT CAN WE IMAGINE THEM SAYING?

**Primary Care:** Many medical clinics offer primary care services, which include routine check-ups, vaccinations, and treatment for common illnesses and injuries.

**Preventive Care:** Clinics often provide preventive care services like health screenings, cancer screenings, and advice on healthy lifestyle choices.

**Urgent Care:** Urgent care clinics are equipped to handle non-life-threatening medical issues that require immediate attention, such as minor injuries and infections.

**Specialty Care:** Some clinics specialize in specific medical areas, such as dermatology, cardiology, or orthopedics. These clinics are staffed by specialists who focus on specific medical conditions.

**Diagnostic Services:** Many clinics have on-site diagnostic services like X-rays, blood tests, and imaging to aid in diagnosing medical conditions.
